Section B

Vol. 87, January–December 1978

SUBJECT INDEX (Animal Sciences)

Aestivation
Oxidation of glucose-U-^{14}C and synthesis of glycogen in different tissues of the garden snail, *Cryptozona liqulata* with reference to aestivation and starvation 27
Purified haemocyanin in the blood of fresh water amphibious snail, *Pila globosa* (Swainson) in relation to aestivation 133

Agallidae
A new species of the genus *Durgades* Dist. of the family Agallidae (Homoptera: cicadelloidea) 357

Alanine amino transferase
Effect of malathion on free amino acids, total proteins, glycogen and some enzymes of pelecypod *Lamellidens marginalis* (Lamarck) 377

Alerting pheromonal action
Studies on the reproductive biology 229

Amniogenesis
Early development, implantation and amniogenesis in the Indian vampire bat, *Megaderma lyra lyra* (Geoffroy) 91

Amphistome cercariae
Larval trematodes. Part II. On two new cercariae from Indoplanorbis exustus (Deshayes) 329

Amphora coffeaeformis
Effect of the epidermal secretions of Hemichordate, *Ptychodera flava* on growth of *Amphora coffeaeformis* and *Cyclotella maneghiniana* (Diatoms) 145

Anabas scandens
A comparative study of hematology of three air-breathing fishes 381

Anthorhynchus hanumanthi
Three new species of gregarines from termites 397

Ariophanta madraspatana
Culturing *Ariophanta madraspatana* (Gray) in the laboratory for pesticide bioassay 137

Aspartate
Effect of malathion on free amino acids, total proteins, glycogen and some enzymes of pelecypod *Lamellidens marginalis* (Lamarck) 377

Bagrid fishes
Contributions to the study of bagrid fishes 14. The systematic position of the species of *Mystus* Scopoli known from China 221

Barytelphusa guerini
Sexual maturity and breeding behaviour in the fresh water crab, *Barytelphusa guerini* Milne Edwards 195

Bioassay
Culturing *Ariophanta madraspatana* (Gray) in the laboratory for pesticide bioassay 137

Biological indices
Pollutional studies of few rivers of Western Uttar Pradesh with reference to biological indices 123

Biometrical analysis
Biometrical analysis of growth in the larva of *Heliothis armigera* Hubner 349

Black rats
Effect of texture on the food preferences of baitshy wild rats (*Rattus rattus* L.) II 77

Bosostrea
Palaeontology of the Bagh Beds—Part V. Ostreina II 105

Breeding behaviour
Sexual maturity and breeding behaviour in the fresh water crab, *Barytelphusa guerini* Milne Edwards 195

Buresiini
New Genera and species of Eurytomidae (Hymenoptera: Eurytomidae) 293

Cell area
Histomorphological studies on the brain neurosecretory profile of Indian Leech, *Poecilobella viridis* (Blonchard) 203

C. Chelawaensis
Larval trematodes. Part II. On two new cercariae from Indoplanorbis exustus (Deshayes) 329

Chemical changes during growth
Changes in chemical composition during growth of *Clarias batrachus* (Linnaeus) 279

C. Chinahatensis
Larval trematodes. Part II. On two new cercariae from Indoplanorbis exustus (Deshayes) 329

Clarias batrachus
Changes in chemical composition during growth of *Clarias batrachus* (Linnaeus) 279

Cling
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

Coadaptation
Population genetics of *Drosophila nasuta nasuta, Drosophila nasuta albomicana* and their hybrids II. Coassociation of parental chromosomes in the hybrid populations 249

Completely randomized design
Growth and protein efficiency ratio in albino rats—a statistical approach 261

Conspecifics
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

Correlation coefficient
On the growth rate of the ovary of *Eyprepocnemis alacris alacris* (Serv.) during post embryonic development. (Orthoptera: Acrididae) 371

Cortisone
Effect of median eminence mediated cortisone and cold stress on pituitary histology 361

Coutship
Studies on the reproductive biology 229

Crepuscular scrub jungle habitats
Studies on the reproductive biology 229

Crowding
Palaeontology of the Bagh Beds—Part V. Ostreina II 105

Cryptozona ligulata
Oxidation of glucose-U^{14}C and synthesis of glycogen in different tissues of the garden snail, *Cryptozona ligulata* with reference to aestivation and starvation 27

Culturing
Culturing *Ariophanta madraspatana* (Gray) in the laboratory for pesticide bioassay 137

Cyclotella meneghiniana
Effect of the epidermal secretions of Hemichordate, *Ptyhcodera flava* on growth of *Amphora coffeaeformis* and *Cyclotella meneghiniana* (Diatoms) 145

Degranulation
Effect of median eminence mediated cortisone and cold stress on pituitary histology 361

Dextral ortheca carrying
Studies on the reproductive biology 229

Dichocrocis punctiferalis Gn.
Life table for the castor capsule borer, *Dichocrocis punctiferalis* Gn. on different hosts 217

Dicyemennea coromandelensis
A new species of *Dicyemennea, D. coromandelensis* n sp. from *Sepia elliptica* Hoyle 161

Dinopidae
A new record of rare spider of the family dinopidae from India with description of a new species 157

Dinopis
A new record of rare spider of the family Dinopidae from India with description of a new species 157

Dinopis goalparaensis
A new record of rare spider of the family dinopidae from India with description of a new species 157

Dominance hierarchy
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

Durgades D
A new species of the genus *Durgades* Dist. of the family Agallidae (Homoptera: cicadelloidea) 357

Earthworm distribution
Distribution and abundance of earthworms in Bangalore 23

E. bengalensis
Ecology of fouling bryozoans at Visakhapatnam harbour 63

Echinostome
Larval trematodes. Part II. On two new cercariae from Indoplanorbis exustus (Deshayes) 329

Ecological significance
Palaeontology of the Bagh Beds—Part V. Ostreina II 105

Ecology
Ecology of fouling bryozoans at Visakhapatnam harbour 63

Epidermal secretions
Effect of the epidermal secretions of Hemichordate, *Ptychodera flava* on growth of *Amphora coffeaeformis* and *Cyclotella meneghiniana* (Diatoms) 145

Etiology
Seedling blight of sugarcane—A new disease caused by *Drechslera* state of *Cochliobolus spicifer* 45

Eurytomidae
New genera and species of Eurytomidae (Hymenoptera: Eurytomidae) 293

Eyprepocnemis alacris alacris
On the growth rate of the ovary of *Eyprepocnemis alacris alacris* (Serv.) during post embryonic development. (Orthoptera: Acrididae) 371

False vampire bat
Development of the foetal membranes and placentation in the Indian false vampire bat, *Magaderma lyre lyra* (Geoffroy) 179

Feeding
Culturing *Ariophanta madraspatana* (Gray) in the laboratory for pesticide bioassay 137

Foetal membranes
Development of the foetal membranes and placentation in the Indian false vampire bat, *Megaderma lyra lyra* (Geoffroy) 179

Food preference
Effect of texture on the food preferences of bait-shy wild rats (*Rattus rattus* L.) II. 77

Fouling bryozoans
Ecology of fouling bryozoans at Visakhapatnam harbour 63

Fresh water crab
Sexual maturity and breeding behaviour in the fresh water crab, *Barytelphusa querini* Milne Edwards 195

Functional morphology
Functional morphology of the masticatory muscles of *Mus musculus* L. 51

Generic composition
A new frog of the genus *Micrixalus* Boul. from Wynad, S. India 173

Glucose-U-^{14}C
Oxidation of glucose-U-^{14}C and synthesis of glycogen in different tissues of the garden snail, *Cryptozona ligulata* with reference to aestivation and starvation 27

Glycogen synthesis
Oxidation of glucose-U-^{14}C and synthesis of glycogen in different tissues of the garden snail, *Cryptozona ligulata* with reference to aestivation and starvation 27

Gregarina macrotermitis
Three new species of gregarines from termites 397

Growth
Growth and protein efficiency ratio in albino rats—a statistical approach 261

Growth rate
Culturing *Ariophanta madraspatana* (Gray) in the laboratory for pesticide bioassay 137

Haemocyanin
Purified haemocyanin in the blood of fresh water amphibious snail, *Pila globosa* (Swainson) in relation to aestivation 133

Heimbrini
New genera and species of Eurytomidae (Hymenoptera: Eurytomidae) 293

Heliothis armigera
Life tables for the gram pod borer, *Heliothis armigera* Hubner (Lepidoptera: Noctuidae) on pea 119
Biometrical analysis of growth in the larva of *Heliothis Armigera* Hubner 349

Hematology
A comparative study of hematology of three, air-breathing fishes 381

Heterokaryo types
Population genetics of *Drosophila nasuta nasuta*. *Drosophila nasuta albomicana* and their hybrids II. Coassociation of parental chromosomes in the hybrid populations 249

Histomorphology
Histomorphological studies on the brain neurosecretory profile of Indian leach, *Poecilobdella viridis* (Blanchard) 203

Home range
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

Homoptera
A new species of the genus *Durgades* Dist. of the family Agallidae (Homoptera: cicadelloidea) 357

Hoplolaimus indicus
Influence of atmospheric conditions and soil temperature on the prevalence of the lance nematode (*Hoplolaimus indicus* Sher, 1963) in rice fields 39

Implantation
Early development, implantation and amniogenesis in the Indian vampire bat, *Megaderma lyra lyra* (Geoffroy) 91

Indoplanorbis exustus
Larval trematodes. Part II. On two new cercariae from Indoplanorbis exustus (Deshayes) 329

Insects
A new species of the genus *Durgades* Dist. of the family Agallidae (Homoptera: cicadelloidea) 357

Interspecific
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

Isopod
Sex ratio of the soil isopod, *Porcellio laevis* (Latreille) in Delhi region 151

Lactic acid excretion
Excretion of lactic acid in exercised fish *Tilapia mossambica* 169

Lamellidens marginalis
Effect of malathion on free amino acids, total proteins, glycogen and some enzymes of pelecypod *Lamellidens marginalis* (Lamarck) 377

Lance nematode
Influence of atmospheric conditions and soil temperature on the prevalence of the lance nematode (*Hoplolaimus indicus* Sher, 1963) in rice fields 39

Latencies
Retrieval of young by lactating Indian gerbil, *Tatera indica indica* (Hardwicke) 285

L. bengalensis sp. nov.
Two new species of spiders of the family Lyssomanidae from India 257

Life table
Life tables for the gram pod borer, *Heliothis armigera* Hubner (Lepidoptera: Noctuidae) on pea 119
Life table for the castor capsule borer, *Dichocrocis punctiferalis* Gn. on different hosts 217

Locomotory metabolism
Excretion of lactic acid in exercised fish *Tilapia mossambica* 169

Lyssomanes karnatakaensis sp. nov.
Two new species of spiders of the family Lyssomanidae from India 257

Lyssomanidae
Two new species of spiders of the family Lyssomanidae from India 257

M. mauritii
Distribution and abundance of earthworms in Bangalore 23

Malathion
Effect of malathion on free amino acids, total proteins, glycogen and some enzymes of pelecypod *Lamellidens marginalis* (Lamarck) 377

Maternal behaviour
Retrieval of young by lactating Indian gerbil, *Tatera indica indica* (Hardwicke) 285

Mating
Studies on the reproductive biology 229

Median eminence
Effect of osmotic stress on parsnervosa and median eminence of *Columba livia* (Gmelin) 33
Effect of median eminence mediated cortisone and cold stress on pituitary histology 361

Megaderma lyra lyra
Early development, implantation and amniogenesis in the Indian vampire bat, *Megaderma lyra lyra* (Geoffroy) 91
Development of the foetal membranes and placentation in the Indian false vampire bat, *Megaderma lyra lyra* (Geoffroy) 179

Micrixalus nudis
A new frog of the genus *Micrixalus* Boul. from Wynad, S. India 173

Minimal molecular weight
Purified haemocyanin in the blood of fresh water amphibious snail, *Pila globosa* (Swainson) in relation to aestivation 133

Morphology
Seedling blight of sugarcane—A new disease caused by *Drechslera* state of *Cochliobolus spicifer* 45

Mus musculus
Functional morphology of the masticatory muscles of *Mus musculus* L. 51

Muscles
Functional morphology of the masticatory muscles of *Mus musculus* L. 51

Mystus
Contributions to the study of bagrid fishes 14. The systematic position of the species of *Mystus* Scopoli known from China 221

Mystus vittatus
A comparative study of hematology of three air-breathing fishes 381

Nematode parasites
Nematode parasites of the slender loris, *Loris tardigradus* 17

Neurosecretion
Effect of osmotic stress on parsnervosa and median eminence of *Columba livia* (Gmelin) 33

Neurosecretory cells
Histomorphological studies on the brain neurosecretory profile of Indian leech, *Poecilobdella viridis* (Blanchard) 203

Neurosecretory material intensity
Histomorphological studies on the brain neurosecretory profile of Indian leech, *Poecilobdella viridis* (Blanchard) 203

New genus
A new genus of foraminifera from the cretaceous rocks of South India 1

Nucleus
Histomorphological studies on the brain neurosecretory profile of Indian leech, *Poecilobdella viridis* (Blanchard) 203

Nutritive value
Changes in the proximate chemical composition and nutritive value of the fresh water murrel, *Ophicephalus punctatus* Bloch during storage 321

Ophiocephalus gachua
A comparative study of hematology of there air-breathing fishes 381

Ophicephalus punctatus
Changes in the proximate chemical composition and nutritive value of the fresh water murrel, *Ophicephalus punctatus* Bloch during storage 321

Osmotic stress
Effect of osmotic stress on parsnervosa and median eminence of *Columba livia* (Gmelin) 33

Ovariole number
On the growth rate of the ovary of *Eyprepocnemis alacris alacris* (Serv.) during post embryonic development. (Orthoptera: Acrididae) 371

Oxidation
Oxidation of glucose-U-^{14}C and synthesis of glycogen in different tissues of the garden snail, *Cryptozona ligulata* with reference to aestivation and starvation 27

Oxycarenus laetus Kirby
Population dynamics of the dusky cotton Bug *Oxycarenus Laetus* Kirby in relation to climatic variation (Heteroptera: Lygaeidae) 387

P. ariyalurensis
A new genus of foraminifera from the cretaceous rocks of South India 1

Pars distalis
Effect of median eminence mediated cortisone and cold stress on pituitary histology 361

Pars intermedia
Effect of median eminence mediated cortisone and cold stress on pituitary histology 361

Parsnervosa
Effect of osmotic stress on parsnervosa and median eminence of *Columba livia* (Gmelin) 33

Pea
Life tables for the gram pod borer, *Heliothis armigera* Hubner (Lepidoptera: Noctuidae) on pea 119

Peak period prevalence
Influence of atmospheric conditions and soil temperature on the prevalence of the lance nematode (*Hoplolaimus indicus* Sher, 1963) in rice fields 39

Persistence
Effect of thuricide on rice stem borers 59
Assay of some systemic insecticides against *Hyadaphis erysimi* (Kalt.) on *Brassica campestris* L., var. *sarson* Prain 211

Philolimini
New Genera and species of Eurytomidae (Hymenoptera: Eurytomidae) 293

Physaloptera masoodi
Nematode parasites of the slender loris, *Loris tardigradus* 17

Pila globosa
Purified haemocyanin in the blood of fresh water amphibious snail, *Pila globosa* (Swainson) in relation to aestivation 133

Pleural puches
Studies on the reproductive biology 229

Pontodrilus bermudensis
Volume regulation in a euryhaline oligochaete, *Pontodrilus bermudensis* Beddard 339

Population dynamics
Sex ratio of the soil isopod, *Forcellio laevis* (Latreille) in Delhi region 151
Population dynamics of the dusky cotton Bug *Oxycarenus Laetus* Kirby in relation to climatic variation (Heteroptera: Lygaeidae) 387

Post embryonic development
On the growth rate of the ovary of *Eyprepocnemis alacris alacris* (Serv.) during post embryonic development. (Orthoptera: Acrididae) 371

Praestorrsella reichɔli
A new genus of foraminifera from the cretaceous rocks of South India 1

Protein efficiency ratio
Growth and protein efficiency ratio in albino rats—a statistical approach 261

Proximate chemical composition
Changes in the proximate chemical composition and nutritive value of the fresh water murrel, *Ophicephalus punctatus* Bloch during storage 321

Ptychodera flava
Effect of the epidermal secretions of Hemichordate, *Ptychodera flava* on growth of *Amphora coffeaeformis* and *Cyclotella meneghiniana* (Diatoms) 145

Randomized block design
Growth and protein efficiency ratio in albino rats—a statistical approach 261

Rapid speciation
Palaeontology of the Bagh Beds—Part V. Ostreina II. 105

Rat
Effect of median eminence mediated cortisone and cold stress on pituitary histology 361

Rattus rattus
Effect of texture on the food preferences of bait-shy wild rats (*Rattus rattus* L.) II. 77

Relative efficiency
Growth and protein efficiency ratio in albino rats—a statistical approach 261

Reproductive behaviour
The annual reproductive behaviour of the green frog, *Rana hexadactyla* Lesson, in and around Mangalore and Mysore (India) 81

Retrieving
Retrieval of young by lactating Indian gerbil, *Tatera indica indica* (Hardwicke) 285

Rhesus
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

R.hexadactyla
The annual reproductive behaviour of the green frog, *Rana hexadactyla* Lesson, in and around Mangalore and Mysore (India) 81

Rice soils
Influence of atmospheric conditions and soil temperature on the prevalence of the lance nematode (*Hoplolaimus indicus*, Sher, 1963) in rice fields 39

Rice stem borers
Effect of thuricide on rice stem borrers 59

Rileyini
New Genera and species of Eurytomidae (Hymenoptera: Durytomidae) 293

Seasonal breeder
The annual reproductive behaviour of the green frog, *Rana hexadactyla* Lesson, in and around Mangalore and Mysore (India) 81

Seasons
Sex ratio of the soil isopod, *Porcellio laevis* (Latreille) in Delhi region 151

Secreting hypodermis
Studies on the reproductive biology 229

Seedling blight
Seedling blight of sugarcane—A new disease caused by *Drechslera* state of *Cochliobolus spicifer* 45

Senescent females
Studies on the reproductive biology 229

Sepia elliptica Hoyle
A new species of *Dicyemennea*, *D. coromandelensis* n sp. from *Sepia elliptica* Hoyle 161

Sex ratio
Sex ratio of the soil isopod, *Porcellio laevis* (Latreille) in Delhi region 151

Sexual maturity
Sexual maturity and breeding behaviour in the fresh water crab, *Barytelphusa querini* Milne Edwards 195

Speciation
Population genetics of *Drosophila nasuta nasuta*, *Drosophila nasuta albomicana* and their hybrids II. Coassociation of parental chromosomes in the hybrid populations 249

Starvation
Oxidation of glucose-U-^{14}C and synthesis of glycogen in different tissues of the garden snail, *Cryptozona ligulata* with reference to aestivation and starvation 27

Steinina coptotermi
Three new species of gregarines from termites 397

Storage
Changes in the proximate chemical composition and nutritive value of the fresh water murrel, *Ophicephalus punctatus* Bloch during storage 321

Subulura indica
Nematode parasites of the slender loris, *Loris tardigradus* 17

Succinate dehydrogenase
Effect of malathion on free amino acids, total proteins, glycogen and some enzymes of pelecypod *lamellidens marginalis* (Lamarck) 377

Sugarcane
Seedling blight of sugarcane—A new disease caused by *Drechslera* state of *Cochliobolus spicifer* 45

Sympatomatology
Seedling blight of sugarcane—A new disease caused by *Drechslera* state of *Cochliobolus spicifer* 45

Systemic insecticides
Assay of some systemic insecticides against *Hyadaphis erysimi* (Kalt.) on *Brassica campestris* L., var. *sar son* Prain 211

Tatera indica
Retrieval of young by lactating Indian gerbil, *Tatera indica indica* (Hardwicke) 285

Temperature effect
Excretion of lactic acid in exercised fish *Tilapia mossambica* 169

Termite gregarines
Three new species of gregarines from termites 397

Textural effects
Effect of texture on the food preferences of bait-shy wild rats (*Rattus rattus* L.) II. 77

Therea petiveriana
Studies on the reproductive biology 229

Thuricide
Effect of thuricide on rice stem borers 59

Tilapia mossambica swimming activity
Excretion of lactic acid in exercised fish *Tilapia mossambica* 169

Toxicity
Assay of some systemic insecticides against *Hyadaphis erysimi* (Kalt.) on *Brassica campestris* L., var. *sar son* Prain 211

Variation
On the growth rate of the ovary of *Eyprepocnemis alacris alacris* (Serv.) during post embryonic development. (Orthoptera: Acrididae) 371

Varietal reaction
Seedling blight of sugarcane—A new disease caused by *Drechslera* state of *Cochliobolus spicifer* 45

Virgins oviposit single eggs
Studies on the reproductive biology 229

Water pollution
Pollutional studies of few rivers of Western Uttar Pradesh with reference to biological indices 123

Weight
On the growth rate of the ovary of *Eyprepocnemis alacris alacris* (Serv.) during post embryonic development. (Orthoptera: Acrididae) 371

Weight, volume regulation
Volume regulation in a euryhaline oligochaete, *pontodrilus bermudensis* Beddard 339

Xenophobia
Establishment of home range, intraspecific and interspecific relations in rhesus monkeys (*Macaca mulatta*) under infant-infant rearing conditions 267

Section B

Vol. 87, January–December 1978

SUBJECT INDEX (Experimental Biology)

Acid sulphate soil
Facultative symbiotrophic nitrogen-fixing associations in Indian rice soils 243

Affinity chromatography
Isolation of leukaemia specific antigenic macromolecular moiety from dinitrophenylated normal human leukocytes 1

Allohydroxy-D-proline
Evidence for the presence of two D-amino acid oxidases in *Pseudomonas aeruginosa* PAO 25

Anabaena doliolum
Effect of 7-azatryptophan on heterocyst differentiation in *Anabaena doliolum* Bharadwaja 31

Anabaena
Intergeneric transfer of streptomycin-resistance marker between two blue-green algae 225

Anacystis
Intergeneric transfer of streptomycin-resistance marker between two blue-green algae 225

Androgens
Effect of cadmium chloride on the serum levels of follicle stimulating hormone (FSH), luteinizing hormone (LH) and androgens in the adult male rat 161

Animal erythrocytes
Haemagglutinin in *Triticale* 63

Antibodies
Purification of goat serum retinol-binding protein and preparation of its antibodies 205

Aspartate transcarbamylase
Studies on plant aspartate transcarbamylase: Regulatory properties of the enzyme from mung bean (*Phaseolus aureus*) seedlings 67

Plant aspartate transcarbamylase: kinetic properties of the enzyme from mung bean (*Phaseolus aureus*) seedlings 81

Aspergillus terreus
Isolation and identification of secondary metabolites of a strain of *Aspergillus terreus*, a common food contaminant 177

Axenic *Entamoeba histolytica*
Amoeba-bacteria relationship: Factors in the bacterial lipids supporting the growth of axenic *Entamoeba histolytica* 181

Azadirachta indica (neem)
Studies on plant gums: Isolation and characterization of the major polysaccharide from Neem (*Azadirachta indica*) gum 261

7-azatryptophan
Effect of 7-azatrypotphan on heterocyst differentiation in *Anabaena doliolum* Bharadwaja 31

Bacterial lipids
Amoeba-bacteria relationship: Factors in the bacterial lipids supporting the growth of axenic *Entamoeba histolytica* 181

Behavioural genetics
Genetic analysis of chemosensory pathway 147

Benzyladenine
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Benzyladenosine
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Binding to receptors
Encystation of axenically grown *Entamoeba histolytica:* Effect of bacterial endotoxins, starch and epinephrine 9

Blood group specificity
Haemagglutinin in *Triticale* 63

Brain
Effect of long-term shock-avoidance training on certain biochemical constituents of rat brain 189

Cadmium chloride
Effect of cadmium chloride on the serum levels of follicle stimulating hormone (FSH), luteinizing hormone (LH) and androgens in the adult male rat 161

Catabolite repression
Growth and trehalase activity in the thermophilic fungus *Thermomyces lanuginosus* 231

Cell membranes
Isolation of leukaemia specific antigenic macromolecular moiety from dinitrophenylated normal human leukocytes 1

Chemosensory mutants
Genetic analysis of chemosensory pathway 147

Cholinestrase
Effect of food deprivation on histomorphology and cholinesterase activity of taste buds in rats 247

Conformational changes
Isolation of leukaemia specific antigenic macromolecular moiety from dinitrophenylated normal human leuckocytes 1

Cucumis sativus L var. Guntur
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Cytokinins
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

D-alanine
Evidence for the presence of two D-amino acid oxidases in *Pseudomonas aeruginosa* PAO 25

D-amino acid oxidases
Evidence for the presence of two D-amino acid oxidases in *Pseudomonas aeruginosa* PAO 25

DNA
Nucleic acid constituent interactions 135
Effect of long-term shock-avoidance training on certain biochemical constituents of rat brain 189

Differentiation
Encystation of axenically grown *Entamoeba histolytica:* Effect of bacterial endotoxins, starch and epinephrine 9
Effect of 7-azatryptophan on heterocyst differentiation in *Anabaena doliolum* Bharadwaja 31
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Dinitrophenylation
Isolation of leukaemia specific antigenic macromolecular moiety from dinitrophenylated normal human leukocytes 1

DL-valine
Evidence for the presence of two D-amino acid oxidases in *Pseudomonas aeruginosa* PAO 25

Early biochemical events
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Entamoeba histolytica
Encystation of axenically grown *Entamoeba histolytica:* Effect of bacterial endotoxins, starch and epinephrine 9

Enzyme induction
Encystation of axenically grown *Entamoeba histolytica:* Effect of bacterial endotoxins, starch and epinephrine 9

Enzymes
Effect of long-term shock-avoidance training on certain biochemical constituents of rat brain 189

Epinephrine
Encystation of axenically grown *Entamoeba histolytica:* Effect of bacterial endotoxins, starch and epinephrine 9

Escherichia coli
On the repression of the biogenesis of respiratory enzymes in *Saccharomyces cerevisiae* and *Escherichia coli* by glucose 109

Estrogen
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarion DNA *in vitro* 41

Estrone
Prolactin secreting cells in the hypophysis of the brown spiny mouse *Mus platythrix* (Bennett) 271

Facultative symbiotrophic associations
Facultative symbiotrophic nitrogen-fixing associations in Indian rice soils 243

Follicle stimulating hormone
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41
Effect of cadmium chloride on the serum levels of follicle stimulating hormone (FSH), luteinizing hormone (LH) and androgens in the adult male rat 161

Food contaminant
Isolation and identification of secondry metabolites of a strain of *Aspergillus terreus*, a common food contaminant 177

Gamma irradiation
Properties of a Mg^{2+} independent isocitrate lyase from gamma irradiated preclimacteric banana (*Musa cavendishii*) 119

Genetic recombination
Intergeneric transfer of streptomycin-resistance marker between two blue-green algae 225

Glucosaminyl asparginyl bond
Studies on plant gums: Isolation and characterisation of the major polysaccharide from neem (*Azadirachta indica*) gum 261

Glucose repression
On the repression of the biogenesis of respiratory enzymes in *Saccharomyces cerevisias* and *Escherichia coli* by glucose 109

Gonadotropin antisera
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41

Growth factor
Amoeba-bacteria relationship: Factors in the bacterial lipids supporting the growth of exenic *Entamoeba histolytica* 181

Gum
Studies on plant gums: Isolation and characterization of the major polysaccharide from neem (*Azadirechta indica*) gum 261

Gustation
Genetic analysis of chemosensory pathway 147

Haemagglutinin
Haemagglutinin in *Triticale* 63

Heterocyst
Effect of 7-azatryptophan on heterocyst differentiation in *Anabaena doliolum* Bharadwaja 31
Effects of some amino acid analogues on growth and heterocyst formation in the blue-green alga *Nostoc linckia* 127

Heterogeneity
Chicken prealbumin: Nature of its heterogeneity and binding of plasma retinol-binding protein and thyroid hormones 195

Histochemistry
Prolactin secreting cells in the hypophysis of the brown spiny mouse *Mus platythrix* (Bennett) 271

^{3}H-thymidine incorporation
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41

Hydrophylic-hydrophobic interconversions
Isolation of leukaemia specific antigenic macromolecular moiety from dinitrophenylated normal human leukocytes 1

Interactions
Nucleic acid constituent interactions 135

Intergeneric-cross
Intergeneric transfer of streptomycin-resistance marker between two blue-green algae 225

Kinetic mechanism
Plant aspartate transcarbamylase: kinetic properties of the enzyme from mung bean (*Phaseolus aureus*) seedlings 81

Lactational stimulus
The ability of prolactin to change the ensitivity of the pituitary of the lactating rat to luteinising hormone releasing hormone *in vitro* 283

Leukaemia antigens
Isolation of leukaemia specific antigenic macromolecular moiety from dinitrophenylated normal human leukocytes 1

Liver
Metabolism of 2,3 Diaminopropionate in the rat 257

L-methionine-DL-sulphoximine
Effects of some amino acid analogues on growth and heterocyst formation in the blue-green alga *Nostoc linckia* 127

L-methyl-DL-methionine
Effects of some amino acid analogues on growth and heterocyst formation in the blue-green alga *Nostoc linckia* 127

Luteinizing hormone
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41
Effect of cadmium chloride on the serum levels of follicle stimulating hormone (FSH), luteinizing hormone (LH) and androgens in the adult male rat 167

Luteinising hormone releasing hormone
The ability of prolactin to change the sensitivity of the pituitary of the lactating rat to luteinising hormone releasing hormone *in vitro* 283

Luteotrophic
Prolactin secreting cells in the hypophysis of the brown spiny mouse *Mus platythrix* (Bennett) 271

Mammotrophic
Prolactin secreting cells in the hypophysis of the brown spiny mouse *Mus platythrix* (Bennett) 271

Metabolism
Metabolism of 2,3 diaminopropionate in the rat 257

Mg^{2+} independent isocitrate lyase
Properties of a Mg^{2+} independent isocitrate lyase from gamma irradiated preclimacteric banana (*Musa cavendishii*) 119

Mouse
Prolactin secreting cells in the hypophysis of the brown spiny mouse *Mus platythrix* (Bennett) 271

Mung bean
Studies on plant aspartate transcarbamylase: Regulatory properties of the enzyme from mung bean (*Phaseolus aureus*) seedlings 67
Plant aspartate transcarbamylase: kinetic properties of the enzyme from mung bean (*Phaseolus aureus*) seedlings 81

Mutants
Evidence for the presence of two D-amino acid oxidases in *Pseudomonas aeruginosa* PAO 25

M values
Nucleotide sequence of 5S RNA of *Mycobacterium smegmatis* 213

Mycobacterium smegmatis
Necleotide sequence of 5S RNA of *Mycobacterium smegmatis* 213

Nerve degeneration
Effect of food deprivation on histomorphology and cholinesterase activity of taste buds in rats 247

Neurogenetics
Genetic analysis of chemosensory pathway 147

Neurotoxic derivatives
Metabolism of 2,3 diaminopropionate in the rat 257

Nitrogen fixation
Facultative symbiotrophic nitrogen-fixing associations in Indian rice soils 243

Nitrogen-fixing efficiency
Facultative symbiotrophic nitrogen-fixing associations in Indian rice soils 243

Nostoc linckia
Effects of some amino acid analogues on growth and heterocyst formation in the blue-green alga *Nostoc linckia* 127

Olfaction
Genetic analysis of chemosensory pathway 147

Ovarian DNA
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41

Ovarian follicular growth
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41

Permeability
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Pituitary responsiveness
The ability of prolactin to change the sensitivity of the pituitary of the lactating rat to lutenising hormone releasing hormone *in vitro* 286

Polysaccharide composition
Studies on plant gums: Isolation and characterization of the major polysaccharide from neem (*Azadirachta indica*) gum 261

Potassium
Early biochemical events during cytokinin action in *Cucumis sativus* cotyledons in culture 95

Prealbumin
Chicken prealbumin: Nature of its heterogeneity and binding of plasma retinol-binding protein and thyroid hormones 195

Purification of goat serum retinol-binding protein and preparation of its antibodies 205

Preclimacteric banana
Properties of a Mg^{2+} independent isocitrate lyase from gamma irradiated preclimacteric banana (*Musa cavendishii*) 119

Pregnant mare serum gonadotropin
Studies on follicular growth in the immature rat and hamster: Effect of a single injection of gonadotropin or estrogen on the rate of ^{3}H-thymidine incorporation into ovarian DNA *in vitro* 41

Prolactin
The ability of prolactin to change the sensitivity of the pituitary of the lactating rat to lutenizing hormone releasing hormone *in vitro* 283

Prolactin secreting cells
Prolactin secreting cells in the hypophysis of the brown spiny mouse *Mus platythrix* (Bennett) 271

Protein-calorie deprivation
Effect of food deprivation on histomorphology and cholinesterase activity of taste buds in rats 247

Protein denaturants
Effect of protein denaturants on the structure of water: Electron spin resonance spin probe study 53

Pseudomonas aeruginosa PAO
Evidence for the presence of two D-amino acid oxidases in *Pseudomonas aeruginosa* PAO 25

Rat
Effect of cadmium chloride on the serum levels of follicle stimulating hormone (FSH), luteinizing hormone (LH) and androgens in the adult male rat 161

Metabolism of 2,3 diaminopropionate in the rat 257

Regulation
Studies on plant aspartate transcarbamylase: Regulatory properties of the enzyme from mung bean (*Phaseolus aureus*) seedlings 67

Respiration
On the repression of the biogenesis of respiratory enzymes in *Saccharomyces cerevisiae* and *Escherichia coli* by glucose 109

Respiratory CO_2
Metabolism of 2,3 diaminopropionate in the rat 257

Retinol
Purification of goat serum retinol-binding protein and preparation of its antibodies 205

Retinol-binding protein
Chicken prealbumin: Nature of its heterogeneity and binding of plasma retinol-binding protein and thyroid hormones 195

Purification of goat serum retinol-binding protein and preparation of its antibodies 205

Rice soils
Facultative symbiotrophic nitrogen-fixing associations in Indian rice soils 243

RNA
Effect of long-term shock-avoidance training on certain biochemical constituents of rat brain 189

RNA sequence
Nucleotide sequence of 5S RNA of *Mycobacterium smegmatis* 213

Saccharomyces cerevisiae
On the repression of the biogenesis of respiratory enzymes in *Saccharomyces cerevisiae* and *Escherichia coli* by glucose 109

Salivary thyroglobulin
Thyroglobulin levels in serum and saliva of patients with differentiated thyroid carcinoma 169

Secondary metabolites
Isolation and identification of secondary metabolites of a strain of *Aspergillus terreus*, a common food contaminant 177

Serum thyroglobulin
Thyroglobulin levels in serum and saliva of patients with differentiated thyroid carcinoma 169

Shock-avoidance
Effect of long-term shock-avoidance training on certain biochemical constituents of rat brain 189

Specificity
Nucleic acid constituent interactions 135

Specificity of binding
Chicken prealbumin: Nature of its heterogeneity and binding of plasma retinol-binding protein and thyroid hormones 195

Spin-probe studies
Effect of protein denaturants on the structure of water: Electron spin resonance spin probe study 53

Sporulation
Growth and trehalase activity in the thermophilic fungus *Thermomyces lanuginosus* 231

Streptomycin-resistance
Intergeneric transfer of streptomycin-resistance marker between two blue-green algae 225

Taste bud
Effect of food deprivation on histomorphology and cholinesterase activity of taste buds in rats 247

Thermomyces lanuginosus
Growth and trehalase activity in the thermophilic fungus *Thermomyces lanuginosus* 231

Thermophilic fungus
Growth and trehalase activity in the thermophilic fungus *Thermomyces lanuginosus* 231

Thin layer electrophoresis
Nucleotide sequence of 5S RNA of *Mycobacteriam smegmatis* 213

Thyroid cancer
Thyroglobulin levels in serum and saliva of patients with differentiated thyroid carcinoma 169

Thyroid hormones
Chicken prealbumin: Nature of its heterogeneity and binding of plasma retinol-binding protein and thyroid hormones 195

Trehalase
Growth and trehalase activity in the thermophilic fungus *Thermomyces lanuginosus* 231

Triticale
Haemagglutinin in *Triticale* 63

Water structure
Effect of protein denaturants on the structure of water: Electron spin resonance spin probe study 53

Section B

Vol. 87, January–December 1978

SUBJECT INDEX (Plant Sciences)

Antigenic proteins
Electrophoretic and antigenic studies of soluble proteins in *Fusarium* wilt of cotton 223

Apical dominance
Correlation of endogenous cytokinins with apical dominance in response to morphactin in soybean (*Glycine max.* L.) 319

Apple scab control
Control of apple scab (*Venturia inaequalis* (Cooke) Winter) in the Kashmir valley using captafol and residues of the fungicide in fruits 271

Astereae
Embryological studies in the Composite Astereae-II 149

Asynapsis
Asynapsis and spontaneous centromeric breakage in an inbred line of *Pennisetum americanum* (L.) Leeke 29

Aulosira
Taxonomic studies on the genus *Aulosira* Kirchner 75

Axillary branches
Effect of gibberellic acid on the growth of main shoot and axillary branches in *Calendula officinalis* 255

Boronia
Taxonomic significance of foliar sclereids in *Boronia* Sm. (Rutaceae) 197

Branching pattern
Effect of gibberellic acid on the growth of main shoot and axillary branches in *Calendula officinalis* 255

Bursaria spinosa
Embryology of Pittosporaceae-III 205

Calendula officinalis
Effect of gibberellic acid on the growth of main shoot and axillary branches in *Calendula officinalis* 255

Captafol
Control of apple scab (*Venturia inaequalis* (Cooke) Winter) in the Kashmir valley using captafol and residues of the fungicide in fruits 271

Carboxyl cellulose
Enzymatic studies on certain fruit-rot fungi-I. Production of cellulase in vitro and in vivo 135

Casearia tomentosa
On the simple leaf galls of *Casearia tomentosa* Roxb (Samydaceae) induced by *Gynaikothrips flaviantennatus* Moulton (Thysanoptera: Phalaeothripidae) 231

Cassia fistula
Floral organogenesis in *Cassia fistula* L. (Caesalpiniaceae) 215

Cellulase
Enzymatic studies on certain fruit-rot fungi-I. Production of cellulase in vitro and in vivo 135

Chlorophyll metabolism
Effect of x-irradiation on physiological and morphological variability in *Abelmoschus esculentus* (L.) Moench 129

Chromosome
Change in chromosome concept 161

Coelogyne raizadae
Two new species of the genus *coelogyne* Lindl. 119

Coelogyne schultesii
Two new species of the genus *Coelogyne* Lindl. 119

Comparison with *Hemidesmus indicus*
Pharmacognostical studies on the root of *Decalepis hamiltonii* Wt. and Arn. and Comparison with *Hemidesmus indicus* (L.) R. Br. 37

Competition
Mortal and plastic responses of pure and mixed populations of wheat and *Chenopodium album* L. at two levels of nutrition 243

Compositae
Embryological studies in the Composite Astereae-II 149

Cyclotella meneghiniana
Studies on *Cyclotella meneghiniana* Kütz. IV. Progressive dimunution in cell size 1

Cyrtandromoea
Floral anatomy and systematic position of *Cyrtandromoea* 71

Cytokinins
Correlation of endogenous cytokinins with apical dominance in response to morphactin in soybean (*Glycine max.* L.) 319

Decalepis hamiltonii
Pharmacognostical studies on the root of *Decalepis hamiltonii* Wt. and Arn., and comparison with *Hemidesmus indicus* (L.) R. Br. 37

Desynapsis
Meiosis in diploid and tetraploid desynaptics of pearl millet 17

Developmental stage of the leaf
On the simple leaf galls of *Casearia tomentosa* Roxb., Samydaceae) induced by *Gynaikothrips flaviantennatus* Moulton (Thysanoptera: Phlaeothripidae) 231

DNA
Change in chromosome concept 161

Dormancy
Developmental anatomy of Ranales.III-. Apical organization and dormancy in roots 283

Electrophoresis
Electrophoretic antigenic studies of soluble proteins in *Fusarium* wilt of cotton 223

Embryology
The embryology of *Ximenia americana* L. 23
Embryological studies in the Composite Astereae-II 149
Embryology of pittosporaceae-III. 205

Enicostemma littorale
Gynoecial ontogeny in *Enicostemma littorale* Blume 83

Floral anatomy
Morphological studies in Meliaceae. II. A reinvestigation of floral anatomy of members of Swietenieae and Trichilieae 55
Floral anatomy and systematic position of *Cyrtandromoea* 71

Floral organogenesis
Floral organogenesis in *Cassia fistula* L. (Caesalpiniaceae) 215

Foliar sclereids
Foliar sclereids in *Rhizophora* L. and their taxonomic implications 191
Taxonomic significance of foliar sclereids in *Boronia* Sm. (Rutaceae) 197

Fresh water weed *Limnocharis*
Morphology of the fruit and mechanism of seed dispersal of the freshwater weed *Limnocharis flava* 49

Fungal staining
A leaf-clearing technique with a wide range of applications 125

Fungal taxonomy
Putagraivam, a new genus of the hyphomycetes 99

Gibberellic acid (GA_3)
Effect of gibberellic acid on the growth of main shoot and axillary branches in *Calendula officinalis* 255

Gossypium
Stomatal chloroplast number in diploids and polyploids of *Gossypium* 109

Gynaikothrips flaviantennatus
On the simple leaf galls of *Casearia tomentosa* Roxb., (Samydaceae) induced by *Gynaikothrips flaviantennatus* Moulton (Thysanoptera: Phlaeothripidae) 231

Gynoecial ontogeny
Gynoecial ontogeny in *Enicostemma littorale* Blume 83

Hyphomycete
Putagraivam, a new genus of the hyphomycetes 99

Immunoserology
Electrophoretic and antigenic studies of soluble proteins in *Fusarium* wilt of cotton 223

In-breeding depression
Asynapsis and spontaneous centromeric breakage in an inbred line of *Pennisetum americanum* (L.) Leeke 29

Knee formation
Developmental anatomy of Ranales-III. Apical organization and dormancy in roots 283

Leaf clearing
A leaf-clearing technique with a wide range of applications 125

Light
Sporulation of *Pestalotia palmarum* Cooke in culture 93

Lobelia Linn
A new species of *Lobelia* Linn. (Campanulaceae) from South India 105

Marsilea
A further investigation of the morphology of vessels in *Marsilea* 335

Meliaceae
Morphological studies in Meliaceae-II. A reinvestigation of floral anatomy of members of Swietenieae and Trichilieae 55

Mentha citrata
Cultivation of *Mentha citrata* Ehrh in Burdwan District, West Bengal 157

Morphactin
Correlation of endogenous cytokinins with apical dominance in response to morphactin in soybean (*Glycine max*. L.) 319

Morphology of vessels
A further investigation of the morphology of vessels in *Marsilea* 335

Mortality
Mortal and plastic responses of pure and mixed populations of wheat and *Chenopodium album* L. at two levels of nutrition 243

Mutagenesis
Pollen variability due to induced polyploidy and mutagenic treatments in the genus *Crotalaria* L. 65

Nitrogen fixing bacteria
Non-symbiotic nitrogen fixing bacteria in the Rhizosphere of wheat, maize and sorghum 299

Nodal anatomy
Nodal anatomy in Trifolieae 277

Non-random breakage
Asynapsis and spontaneous centromaric breakage in an inbred line of *Pennisetum americanum* (L.) Leeke 29

Oil content
Cultivation of *Mentha citrata* Ehrh in Burdwan District, West Bengal 157

Okra
Effect of x-irradiation on physiological and morphological variability in *Abelmoschus esculentus* (L.) Moench 129

Orchidaceae
Two new species of the genus *Coelogyne* Lindl. 119

Organic evolution
The aim and scope of plant morphology-II. 325

Organogenesis
Change in chromosome concept 161

Paplionaceae
Nodal anatomy in Trifoliaea 277

Pearl millet
Meiosis in diploid and tetraploid desynaptics of pearl millet 17

Pennisetum americanum
Asynapsis and spontaneous centromeric breakage in an inbred line of *Pennisetum americanum* (L.) Leeke 29

Percent germination
Effect of x-irradiation on physiological and morphological variability in *Abelmoschus esculentus* (L.) Moench 129

Pervalvar elongation
Studies on *Cyclotella meneghiniana* Kütz. IV. Progressive diminution in cell size 1

Pestalotia palmarum
Sporulation of *Pestalotia palmarum* Cooke in culture 93

Pharmacognosy
Pharmacognostical studies on the root of *Decalepis hamiltonii* Wt. and Arn., and comparison with *Hemidesmus indicus* (L.) R. Br. 37

Phenol
A leaf clearing technique with a wide range of applications 125

Pittosporaceae
Embryology of Pittosporaceae–III 205

Plant height
Effect of x-irradiation on physiological and morphological variability in *Abelmoschus esculentus* (L.) Moench 129

Plasticity
Mortal and plastic responses of pure and mixed populations of wheat and *Chenopodium album* L. at two levels of nutrition 243

Plant morphology
The aim and scope of plant morphology-II 325

Pollen
Pollen variability due to induced polyploidy and mutagenic treatments in the genus *Crotalaria* L. 65

Polyploid
Stomatal chloroplast number in diploids and polyploids of *Gossypium* 109

Pollen variability due to induced polyploidy and mutagenic treatments in the genus *Crotalaria* L. 65

Population impact
On the simple leaf galls of *Casearia tomentosa* Roxb., (Samydaceae) induced by *Gynaikothrips flaviantennatus* Moulton (Thysanoptera: Phlaeothripidea) 231

Progressive size diminution
Studies on *Cyclotella meneghiniana* Kütz.-IV. *Progressive* diminution in cell size. 1

Ranales
Developmental anatomy of Ranales-III. Apical organization and dormancy in roots 283

Residues
Control of apple scab (*Venturia inequalis* (Cooke) Winter) in the Kashmir valley using captafol and residues of the fungicide in fruits 271

Rhizophora L.
Foliar sclereids in *Rhizophora* L. and their taxonomic implications 191

Rhizosphere
Non-symbiotic nitrogen fixing bacteria in the Rhizosphere of wheat, maize and Sorghum 299

Root apex
Developmental anatomy of Ranales-III. Apical organization and dormancy in roots 283

Rust fungi
Additions to our knowledge of rusts (Uredinales) from Hyderabad (India)–III 113

Safflower
NaCl salinity-induced changes in stomatal characteristics of safflower 141
Salinity
Studies on *Cyclotella meneghiniana* Kutz.-IV. Progressive diminution in cell size 1
NaCl salinity-induced changes in stomatal characteristics of safflower 141
Scotch marigold
Effect of gibberellic acid on the growth of main shoot and axillary branches in *Calendula officinalis* 255
Seed-borne nature of *Sclerospora sorghi*
Seed-borne Nature of *Sclerospora sorghi* on Sorghum 303
Seed dispersal mechanism
Morphology of the fruit and mechanism of seed dispersal of the freshwater weed *Limnocharis flava* 49
Seedling growth
Effect of x-irradiation on physiological and morphological variability in *Abelmoschus esculentus* (L.) Moench 129
Soybean
Correlation of endogenous cytokinins with apical dominance in response to morphactin in soybean (*Glycine mas.* L). 319
Sporulation
Sporulation of *Pestalotia palmarum* Cooke in culture 93
Stomatal characteristics
NaCl salinity-induced changes in stomatal characteristics of safflower 141
Stomatal chloroplast
Stomatal chloroplast number in diploids and polyploids of *Gossypium* 109
Swietenieae
Morphological studies in Meliaceae-II. A reinvestigation of floral anatomy of members of Swietenieae and Trichilieae 55
Systematic position
Floral anatomy and systematic position of *Cyrtandromoea* 71
Taxonomy
Taxonomic studies on the genus *Aulosira* Kirchner 75
Tetraploid
Meiosis in diploid and tetraploid desynaptics of pearl millet 17
Trichilieae
Morphological studies in Meliaceae-II. A reinvestigation of floral anatomy of members of Swietenieae and Trichilieae 55
Trichloroacetic acid
A leaf-clearing technique with a wide range of applications 125
Trifoliaeae
Nodal anatomy in Trifolieae 277
Uredinales
Additions to our knowledge of rusts (Uredinales) from Hyderabad (India)–III 113
Weed-crop interaction
Mortal and plastic responses of pure and mixed populations of wheat and *chenopodium album* L. at two levels of nutrition 243
Ximenia americana
The embryology of *Ximenia americana* L. 23
x-irradiation
Effect of x-irradiation of physiological and morphological variability in *Abelmoschus esculentus* (L.) Moench 129
